

Ravan Guliyev

Full Stack Developer

Baku, Azerbaijan | [+994 55 509 39 93](tel:+994555093993) | ravan@guliyev.dev | guliyev.dev | [linkedin](https://www.linkedin.com/in/ravanguliyev) | [github](https://github.com/ravanguliyev)

About Me

I have mastered the **Javascript** ecosystem, specializing in Frontend with **Vue.js (Nuxt.js)** and Backend with **Nodejs**. I handle both the development phase and the server integration phase of projects. I strongly support the Vue.js ecosystem and enjoy working with it..

Technical Skills

Frontend: Vue.js, Nuxt.js, NuxtUI, Typescript, Javascript (ES6+), Tailwind CSS

Backend: Node.js, Express.js, RESTful API

Database: PostgreSQL, MySQL, Drizzle ORM

Authentication: Better Auth, JWT, OAuth 2.0

Tools: Git, Docker

Other: CI/CD processes, Socket, Cloudflare, NGINX, AI/RAG

Work Experience

Senior Consultant

2020 – present

Chamber of Accounts of the Republic of Azerbaijan

- Development of the official website - sai.gov.az
- Development of the internal ERP system. Integration of SocketIO with Nuxt.js.
- Providing technical support to other information systems of the Chamber of Accounts
- Building an AI Model, RAG (Retrieval-Augmented Generation) process and its integration with the ERP system

Projects
